

## About Us

Headquartered in Saint Louis, Dekamco Development, LLC. (Dekamco) has attracted an expert team from countries across the world including the United States, Nigeria, and India. At Dekamco, we use cloud based computing which enables ubiquitous, ondemand access to a shared pool of configurable computing resources. Our servers maintain data of US-based residential contacts and worldwide business contacts. The Dekamco team has diverse, yet complementary qualifications. Some of our team's professional and educational skills include Computer Science, Engineering, Mathematics, Cognitive Science, and Business. These diverse qualifications provide our clients perspectives and offer contributions vital to the success of a fast paced technology company.

Our leadership team is experienced in management and technology development. Our workforce includes those with many years of relevant industry experience and those who are on the cutting edge of the latest technology. Team members are experts in their respective fields, including broad experience in management, consulting, analytics, research and development. The combined corporate experience provides an advanced level of team and industry competence which is seldom found within a single company.

## Differentiators

With Dekamco's small, tight, integrated team of experts, we are able to quickly meet the demanding challenges of tomorrow's needs without the burden, bureaucracy, and overhead of a large company. Additionally, through our strategic partnerships with leading government and private clients, Dekamco can also efficiently deliver products as needed on a large scale.

- Committed experts
- Industry vetted
- Developing Scalable solutions
- Comprehensive quality
- Flexible architecture

## Recent Clients

- Health & Senior Services - State of Missouri
